Please enrol online at www.heyfever.com.au or email Kirsty, admin@heyfever.com.au

For all queries please email Kirsty, admin@heyfever.com.au or phone Sarah-Ann 0438 036 932.

Fees for 2018

Please read our HEY Fever Fee Policies before enrolling your child:

- Each Semester is broken up into two terms. Payment for the semester is broken down into two payments, one per term.
- Fees are to be paid in full, or have a payment plan in place, prior to the first week of term.
- Fees are to be paid for all classes whether students are in attendance or absent.
- A non-refundable deposit to secure your child's place for the semester is required 2 weeks prior to semester start.
- All new families will need to attend the Orientation Day at their selected venue the week before classes start back for the year (if enrolled at both venues, simply attend one meeting).
- Fees are set at \$16 for the first enrolled class for the day and \$11 for each class after that, per week, payable by the term.
- Enrollment can be made at either venue with fees being consistent across all venues.
- All equipment such as stationary including paper, pens, pencils, printing and laminating is supplied.
- Parents will need to supply items like Art Folders & Technology (IPad/Tablets/Laptops) with required apps installed where applicable.
- The Textiles, Wood & Textiles and Art class may have additional costs, like buying personal fabrics, t-shirts or canvasses, depending on projects chosen by the group at the commencement of the semester.
- There is a 10+% sibling discount for the 3rd child or more enrolled in our classes.
- Kidsport Vouchers are accepted to contribute \$200 to the fees of one sports class for one semester in the year (\$100 per term). This is available for all Table Tennis & Fitness Classes only.
- Our classes run for 75 minutes in small groups of 8 - 12 students.
- Most classes have mixed age groupings allowing students of all ages to interact in classes together, while still focusing on the individual needs of each student.

Fees for 2018

Our fees for a typical 10 week term are as follows:

	1 Class	2 Classes	3 Classes	4 Classes (or Full Day)
Child 1	\$160	\$270	\$380	\$490
Child 2	\$160	\$270	\$380	\$490
Child 3 or more	\$140	\$240	\$340	\$440

Payment can be made by bank deposit, cash or cheque on the first day of term. Bank details are as follows...

Bank: Westpac

Name: HEY Fever

BSB: 036058

Acc#: 000366

To enrol your child please fill out the enrollment form online at www.heyfever.com.au or email admin@heyfever.com.au

Curriculum Standards

HEY Fever classes focus on both the Australian National Curriculum and the WA School Curriculum and Standards Authority.

Both these Curriculum include seven general capabilities:

- Literacy
- Numeracy
- Information and communication technology (ICT) capability (iPads/Tablets/Laptops)
- Critical and creative thinking
- Personal and social capability
- Ethical understanding
- Intercultural understanding.

These seven capabilities are an integral part of all our class curriculum at HEY Fever.

<http://k10outline.scsa.wa.edu.au/home/p-10-curriculum/general-capabilities-over/general-capabilities-overview/general-capabilities-in-the-australian-curriculum>

Our Classes in a Nut Shell!

For more indepth information and work samples please see our website heyfever.com.au

English

English (Speech Making & Debating)- English is firstly a language..... the English class focuses on how to effectively communicate in this language. Students will express themselves not only in the written word, but verbally through discussion, debates and public speaking. Classes will involve word processing skills and will require some form of technology (iPad/Tablet/Laptop) with required apps installed!

Health & Communication (Junior) - Classes focus on communication, relating to others & expressing ourselves, while building self-esteem. Focusing on students successes, strengths and mental wellness, using positive thinking, listening and speaking through team games, puppets, discussions, debates and decision making. For older students, similar content can be found in Puppetry.

Mathematics

Math Tutoring - Mathematics is an essential part of every child's education. The classes will include practical math applications, math games, and personal math tuition. Math concepts covered will be based on the individual needs of each student.

Language

French - Students will learn how to speak and write French! Classes will include learning numbers and counting, colours, food and shopping, introducing yourself, hobbies and directions.

Our Classes in a Nut Shell!

For more indepth information and work samples please see our website heyfever.com.au

Humanities & Social Sciences

Humanities (History/Geography/Social Anthropology) - Studying the human race - what they have done, where they have been, where they live, who they are and what they are doing now! Classes will involve internet research and word processing skills which will require some form of technology (iPad/Tablet/Laptop) with required apps installed!

Sciences

Science (General)- Classes for all ages that are hands on! Classes will include discussion, analysis and hands on experiments, enabling students to explore all strands of the science curriculum creatively by learning and having fun. The four sub-strands (Biological, Chemical, Earth and Space, Physical) will be covered over the entire year. This semester is covering Biological & Earth Sciences.

Zoology - is the branch of science that studies animals, from all the flying things in the air to all that move upon the earth. This semester will be focused on insects! Students will create fact sheets and study insects under the microscope! Some form of technology (iPad/Tablet/Laptop) which required apps installed is a requirement for this class!

Human Biology and Junior Body Science- Students will learn about their bodies, food & nutrition and healthy living as well as producing disgusting science experiments along the way! Come along and explore the insides of ourselves...the Good, the Bad and the Ugly! Some form of technology (iPad/Tablet/Laptop) is recommended for this class!

Our Classes in a Nut Shell!

For more indepth information and work samples please see our website heyfever.com.au

Physical Education

Table Tennis - The perfect Olympic sport for all ages, improving reflexes, hand-eye coordination, mental alertness, balance, coordination and brain function, whilst having fun!

Fitness- Students will focus on themselves and what training is healthy for them and their body type. Classes include strength training, personal routines and exercises.

Health & Communication (Junior) - Classes focus on communication, relating to others & expressing ourselves, while building self-esteem. Focusing on students successes, strengths and mental wellness, using positive thinking, listening and speaking through team games, puppets, discussions, debates and decision making. For older students, similar content can be found in Puppetry.

Work Studies - Vocational Skill Development & Employment Readiness

Life Planning 101 - Classes focus on students as an individual - learning about who they are, what they want to become and the steps to getting there. Classes will involve goal setting, action plans, team work, task analysis, career guidance and training options, developing life long habits, establishing a good work ethic to future success. Some form of technology (iPad/Tablet/Laptop) with required apps installed is a requirement!

Our Classes in a Nut Shell!

For more indepth information and work samples please see our website heyfever.com.au

The Arts

Art - Classes will include drawing with pencil, crayons, pastels, chalk, painting with acrylics. Extra costs may be involved for personal projects. For example: own canvasses for painting

Drama - Building confidence and life skills through creativity. Includes dressing up, costume design, playwriting, voice projection, stage craft etc. Scripts will be learned and performed at the Presentation afternoon at the end of the semester.

Film & Media Arts (Anime) - Calling all lovers of Anime, Manga and Cosplay. Students will view media snippets, discuss their opinions and create reviews of their favourite anime titles. Students will create their own anime story, draw and film it!

Musical Theatre - Students will work on dialogue, singing, stage craft and choreography. Songs with choreography will be learned and performed at the Presentation afternoon at the end of the semester.

Choir - Students will focus on developing choir fundamentals like posture, breathing, diction, pitch and rhythm while singing to popular tunes. Songs will be learned and performed at the Presentation afternoon at the end of the semester.

Puppetry - Students will learn how to manipulate inanimate objects to create an animated story... to tell their own story or somebody elses! It is a safe environment for students of all ages to build confidence and expression.

Our Classes in a Nut Shell!

For more indepth information and work samples please see our website heyfever.com.au

Technologies

Photography & Digital Media - Students will take a variety of photographs and assemble them in digital media projects. Classes will involve word processing and graphic design skills and will require some form of technology (iPad/Tablet/Laptop) with required apps installed! Extra apps may also be needed as we progress, for example: photo processing apps.

Wood & Textiles and Junior Textiles - Students will create with wood and textile projects/artworks. This class will include tool identification & safety, whittling, sawing, pyrography (wood burning), hammering, painting & staining! Projects in the past have included burning & whittling projects like hedgehogs and book ends, wooden robots, string art and stencils for t-shirts. Extra costs may be involved for personal projects. For example: own t-shirts for stenciling. For safety reasons this is an "add on" class - students must enrolled in another of Sarah's classes prior to attending this class.

Tech Drawing - Students use drafting boards, with T-squares and set squares to create technical art works. Techniques include lines and shading, oblique and isometric views, aestheometry, linear perspective and op art!

Computer Aided Drafting (CAD) - Tech Drawing on computers! Learn the basics of drafting ready for future architectural and engineering studies. Students will need their own laptop with Draftsight installed!
